Celebrate the 4th of July by joining us in bringing awareness to the most progressive techniques and preventive measures of the day-to-day health risks & dangers. Get involved with our health fair by sharing and teaching others how to act fast when disaster strikes. Parents and children will learn who to call and what to do, before first responders arrive. Discover tips on being healthy, personal identification, first aid, how to give blood, and safely avoiding risky situations. Together we can create a better lifestyle for our community, in a fun and relaxed environment.

Simply being aware may save a life.
