YASH PAL DAS
Past Rotary International Director
1905-2005
ROTARY CELEBRATES 100 YEARS
Inspiration for the Project

1997: Mrs. Sneh Bansal was detected with Cancer

2000: Rtn. Subhash Bansal decided to provide care for cancer patients in Ambala as no such facility was available in there
Cancer Awareness and Counseling Program

100 awareness camps
2500 women examined for Breast Cancer.
Decision in 2005 to set up a full time Rotary Hospital
OUR DREAM

Our Centennial Project

Rotary Ambala Cancer & General Hospital
OUR MOTIVATOR

Dr. Jai Dev
Chairman
Contributed over US$ 1 million
January 2010

Hospital begins to function
WARD CHARGES US$4 PER DAY
ROTARY’S GIFT TO THE COMMUNITY

Initiated by the Rotary Club of Ambala in 2005 to commemorate 100 years of Rotary

US $2 million donated by Rotary Members & Community

A No Profit - No Loss Hospital

Built up area: 40,000 sq. ft.

100 Beds General Hospital
**OUR OBJECTIVE**

**Motto:** Low Cost but Quality Healthcare for all

**Model:** Infrastructure, including Land, Building, Equipment, etc. to be provided through donations by Rotarians and the Community

**Funding:** Running expenses to be borne by patients
MODERN EQUIPMENT
Surgery with C-Arm in Progress
ANGIOGRAPHY–ANGIOPLASTY PROCEDURES
OUR FACILITIES

- Cath Lab for Angioplasty and Pace Maker implant
- Advanced Pathology Lab
- 2 Operation Theatres – with Laminar Airflow – Bacteria free system
- Separate Male and Female Wards
- 10 Private Rooms
- Semi-private wards
- 24 hour Emergency with critical are MD doctor
OUR DEPARTMENTS

- General Medicine
- General Surgery
- Orthopedics
- Ear Nose Throat
- Radiology
- Physiotherapy
- Critical Care
- Urology & Kidney
- Oncology
- Neuro Surgery
- Dermatology
- Interventional Cardiology
OUR DREAM FOR THE FUTURE

250 Bed Multi-specialty hospital

Advanced Cardiac Care Center

Radiotherapy Equipment

Develop into a full-fledged Medical College and Cancer Research Center
Rotarians are doing good in the community.

Cervical Cancer Prevention

In the summer of 2015 HEWRAG leadership was approached by General Secretary John Hewko and asked to meet with the American Cancer Society (ACS) to determine the feasibility of HEWRAG and ACS working together on the global problem of Cervical Cancer.

What is the problem?

The global burden of cervical cancer is high and inequitable, especially in developing countries (defined low or low-middle income by the World Bank).

- An estimated 528,000 women get cervical cancer each year, and 266,000 die. 85% of these women are in developing countries.
- By 2030, the number of cervical cancer cases globally will be more than double the number of deaths from pregnancy-related complications.
- The global cost of cervical cancer was $2.7 billion in 2010. This will rise to $4.7 billion by 2030.

Why take action? Cervical Cancer is a preventable cancer!
Cervical cancer prevention programs…

Save women’s lives, keeping families and communities intact

Can be successfully integrated into existing health services for women and girls

Are in demand, viable, and affordable in all countries
Cervical cancer prevention programs…
(continued)

Are a highly cost-effective "best-buy" in global health (WHO)

Contribute to achieving current and emerging global development targets on
1. the health of girls and women and
2. the reduction of noncommunicable diseases (NCDs) worldwide.
Preventing, Evaluating, and Treating HPV

✓ Vaccination
✓ Examination
  self-testing
  VIA
  PAP Smears
✓ Treatment
  Cryo therapy
  LEEP
✓ Referral
They were separated by time and space but connected through something even stronger.
