Making an inventory of the $50,000 in donations to the U of Nairobi School Dental School
Health Kits donated by the Henry Schein Cares Foundation
Topical anesthetic gel and topical fluoride donated by Centrix
Screening, oral prophylaxis, and treatments for children in Mukuru Slum, Nairobi
Equipment & supplies allow improved dental care for children.
A dental exam isn’t really scary.
Clean teeth = a bright smile.
And a friendly lion helps, too.
And the results are great!
PDG Laura Day
Project Leader

Kenya Smiles

Improving the Oral Health of Children in Kenya

Kenya Smiles

WHERE IN THE WORLD
Kithoka, Kenya

Children were lined up for morning assembly at a primary school in rural Kenya when this girl caught the eye of Sheila Hurst, a member of the Rotary Club of Redding West, Calif., USA. "I was struck by that group. The boys were laughing, but this girl was ready to take on anything," Hunt is the coordinator of Kenya Smiles, a $200,000 oral preventive health global grant project organized by District 5160 (California) and 9200 (parts of East Africa), with help from District 6150 (Arkansas). "All these pieces came together to provide opportunities for this little girl."

What can Rotarians and Rotaractors do about the problem?

- Raise awareness about the local problem
- Support training for local educators, parents, and policy makers
- Learn the oral health curriculum and offer to teach it in your community and internationally
- Help discourage sugar-based drinks and highly processed foods
- Encourage healthy, traditional diets
How HEWRAG can support Rotarians and Rotaractors

- Provide information about educational materials, supplies, and curricula
- Provide additional information, including technical information for oral health care professionals
- Connect Rotarians to the global oral health prevention community
How to Join HEWRAG
